## 1. Introduction

### 1.1 Purpose

This *Field Reference Guide* condenses information contained in the *South Carolina Marine Debris Emergency Response Guide: Comprehensive Guidance Document (Guide)* to facilitate use during emergency response operations. While the *Comprehensive Guidance Document* serves as a complete reference for incident waterway debris response in South Carolina, the *Field Reference Guide* includes the most pertinent information for quick reference in the field and during times of crisis. Both documents and subsequent versions will be posted on the National Oceanic and Atmospheric Administration’s (NOAA) Marine Debris Program website at <https://marinedebris.noaa.gov/>.

The purpose of these documents is to improve preparedness for response and recovery operations following an acute waterway debris incident in South Carolina. The term acute waterway debris incident is used to generally describe an incident – either natural or anthropogenic – that results in the release of large amounts of waterway debris. The *Comprehensive Guidance Document* and complementary *Field Reference Guide* outline existing response structures at the local, state, and federal levels to facilitate a coordinated, well-managed, and immediate response to potential waterway debris incidents impacting the state of South Carolina. Individual organization roles and responsibilities are presented in a consolidated one-page flowchart, which functions as a decision tree for waterway debris response. Additionally, permitting and compliance requirements for waterway debris removal have been synthesized in a one-page reference handout.

### 1.2 Scope of *Guide*

The *Comprehensive Guidance Document* and *Field Reference Guide* address potential acute waterway debris incidents affecting South Carolina’s coastline. For purposes of these documents, the term waterway debris (or incident waterway debris) is used in lieu of the term marine debris. In 33 U.S.C. § 1956(3), marine debris is defined as any persistent solid material that is manufactured or processed and directly or indirectly, intentionally or unintentionally, disposed of or abandoned into the marine environment or Great Lakes. Although vegetative debris is not included in the legal

definition for marine debris, South Carolina stakeholders have identified it as a common debris stream of concern following disasters in the state. To account for both marine debris and vegetative debris in this document, the term waterway debris is used and includes any solid material, including but not limited to vegetative debris and debris exposed to or that has the potential to release oil, hazardous substances, pollutants or contaminants, that enters a waterway following an acute incident and poses a threat to the natural or man-made environment. This may include shoreline and wetland debris and debris in some inland, non-tidal waterways.

## **2. South Carolina Incident Waterway Debris Response Flowchart**

The “South Carolina Incident Waterway Debris Response Flowchart” on the following page provides a visual one-page representation of agency roles and responsibilities. The flowchart functions as a decision tree for waterway debris response with color-coded endpoints. Yellow endpoints represent response to waterway debris that is exposed to or has the potential to release oil, hazardous substances, pollutants or contaminants. Blue endpoints represent response to waterway debris that is not exposed to and does not have the potential to release oil, hazardous substances, pollutants or contaminants. Endpoints within the green shaded area indicate that response may occur under Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act) authorities and/or funding.

# South Carolina Incident Waterway Debris Response Flowchart

## Acronyms

ADV – Abandoned and Derelict Vessel  
 ACP – Area Contingency Plan  
 DHEC – SC Department of Health and Environmental Control  
 DoD – U.S. Department of Defense  
 DNR – SC Department of Natural Resources  
 EPA – U.S. Environmental Protection Agency  
 ERS – DHEC’s Emergency Response Section  
 ESF – Emergency Support Function  
 EWP – Emergency Watershed Protection  
 FEMA – Federal Emergency Management Agency  
 NCP – National Oil & Hazardous Substance Contingency Plan  
 NGO – Non-Governmental Organization  
 NPS – National Park Service  
 NRC – National Response Center

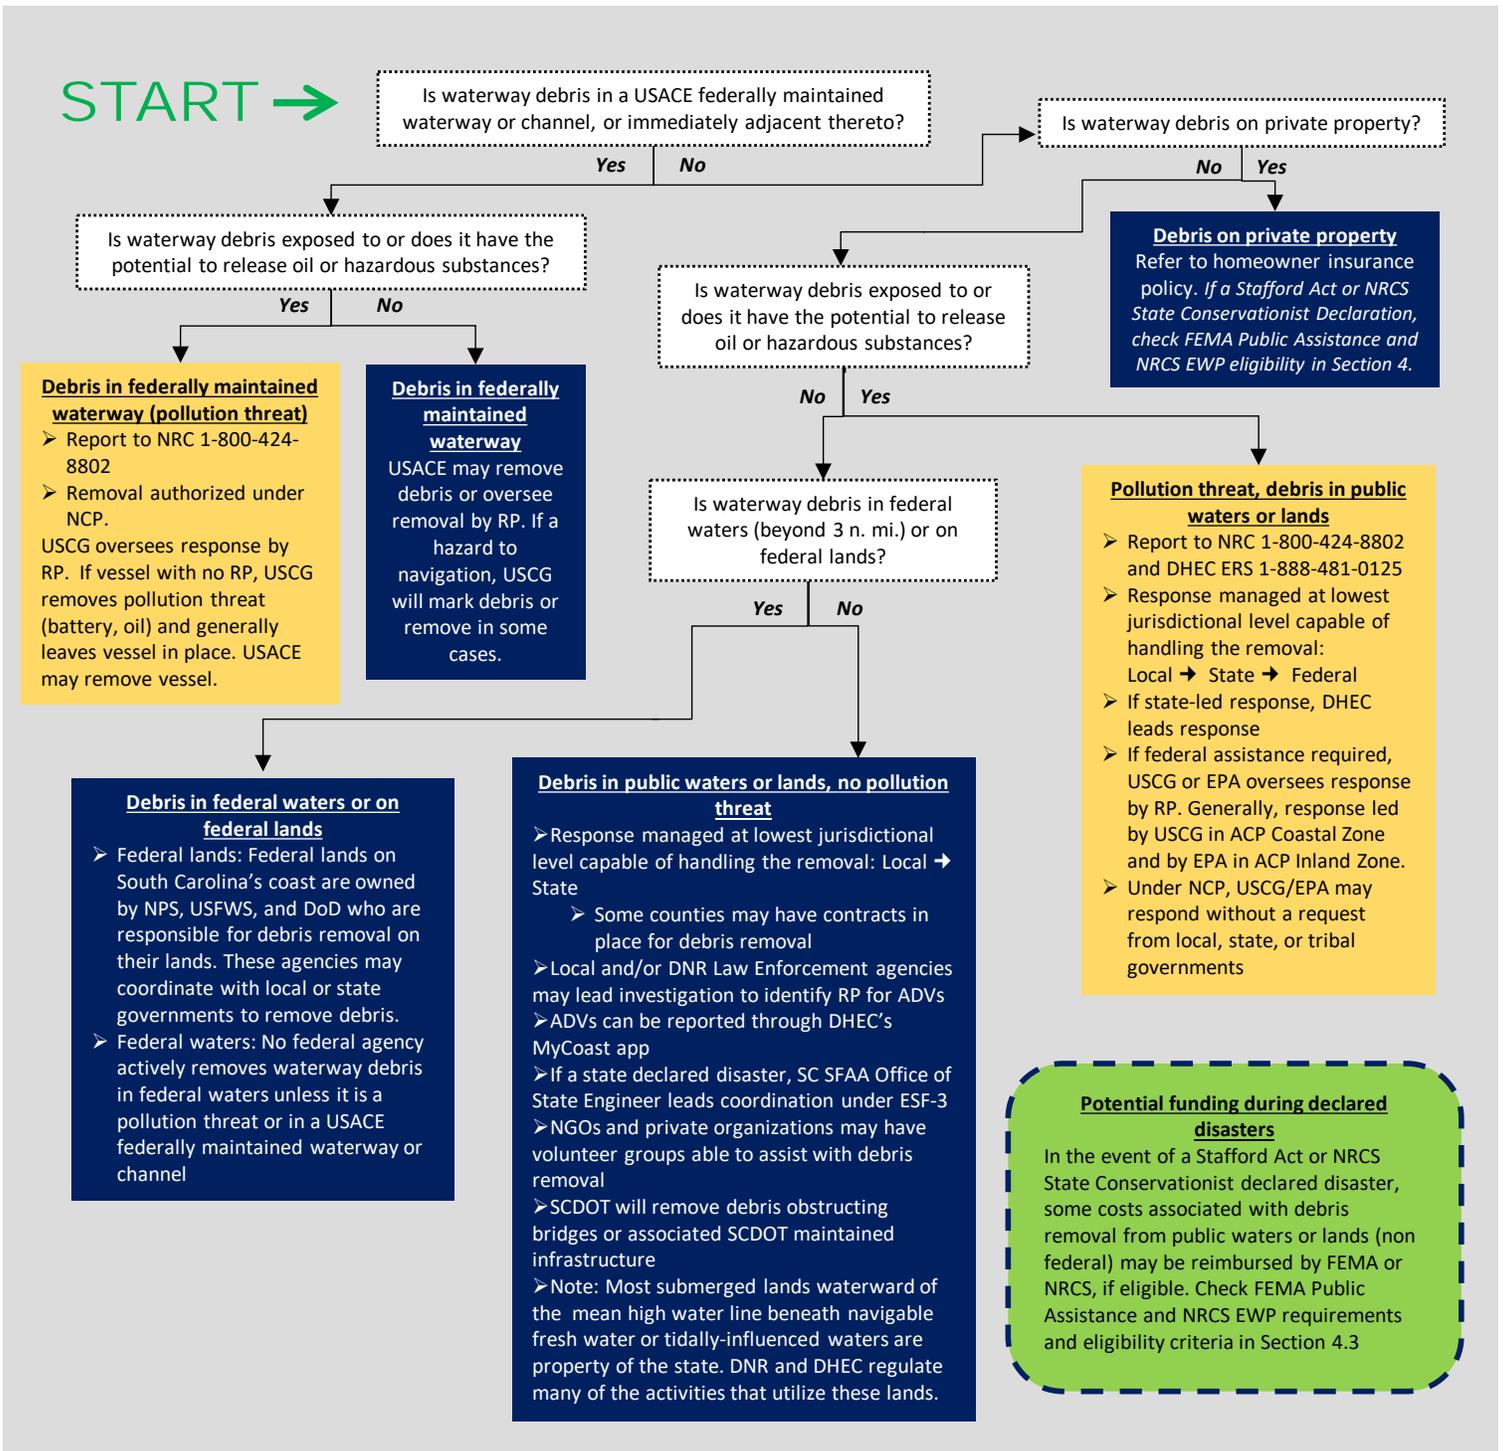

NRCS – Natural Resources Conservation Service  
 RP – Responsible Party (Owner, Operator, Lessee)  
 SCDOT – SC Department of Transportation  
 SCEMD – SC Emergency Management Division  
 SFAA – SC State Fiscal Accountability Authority  
 USACE – U.S. Army Corps of Engineers  
 USCG – U.S. Coast Guard  
 USFWS – U.S. Fish and Wildlife Service

## Flowchart Key

**Response to waterway debris that is exposed to or has the potential to release oil, hazardous substances, pollutants, or contaminants**

**Response to waterway debris that is not exposed to and does not have the potential to release oil, hazardous substances, pollutants, or contaminants**

**Waterway Debris/Incident Waterway Debris**  
 Any solid material, including but not limited to vegetative debris and debris exposed to or that has the potential to release oil, hazardous substances, pollutants or contaminants, that enters a waterway following an acute incident and poses a threat to the natural or man-made environment. This may include shoreline and wetland debris and debris in some inland, non-tidal waterways.

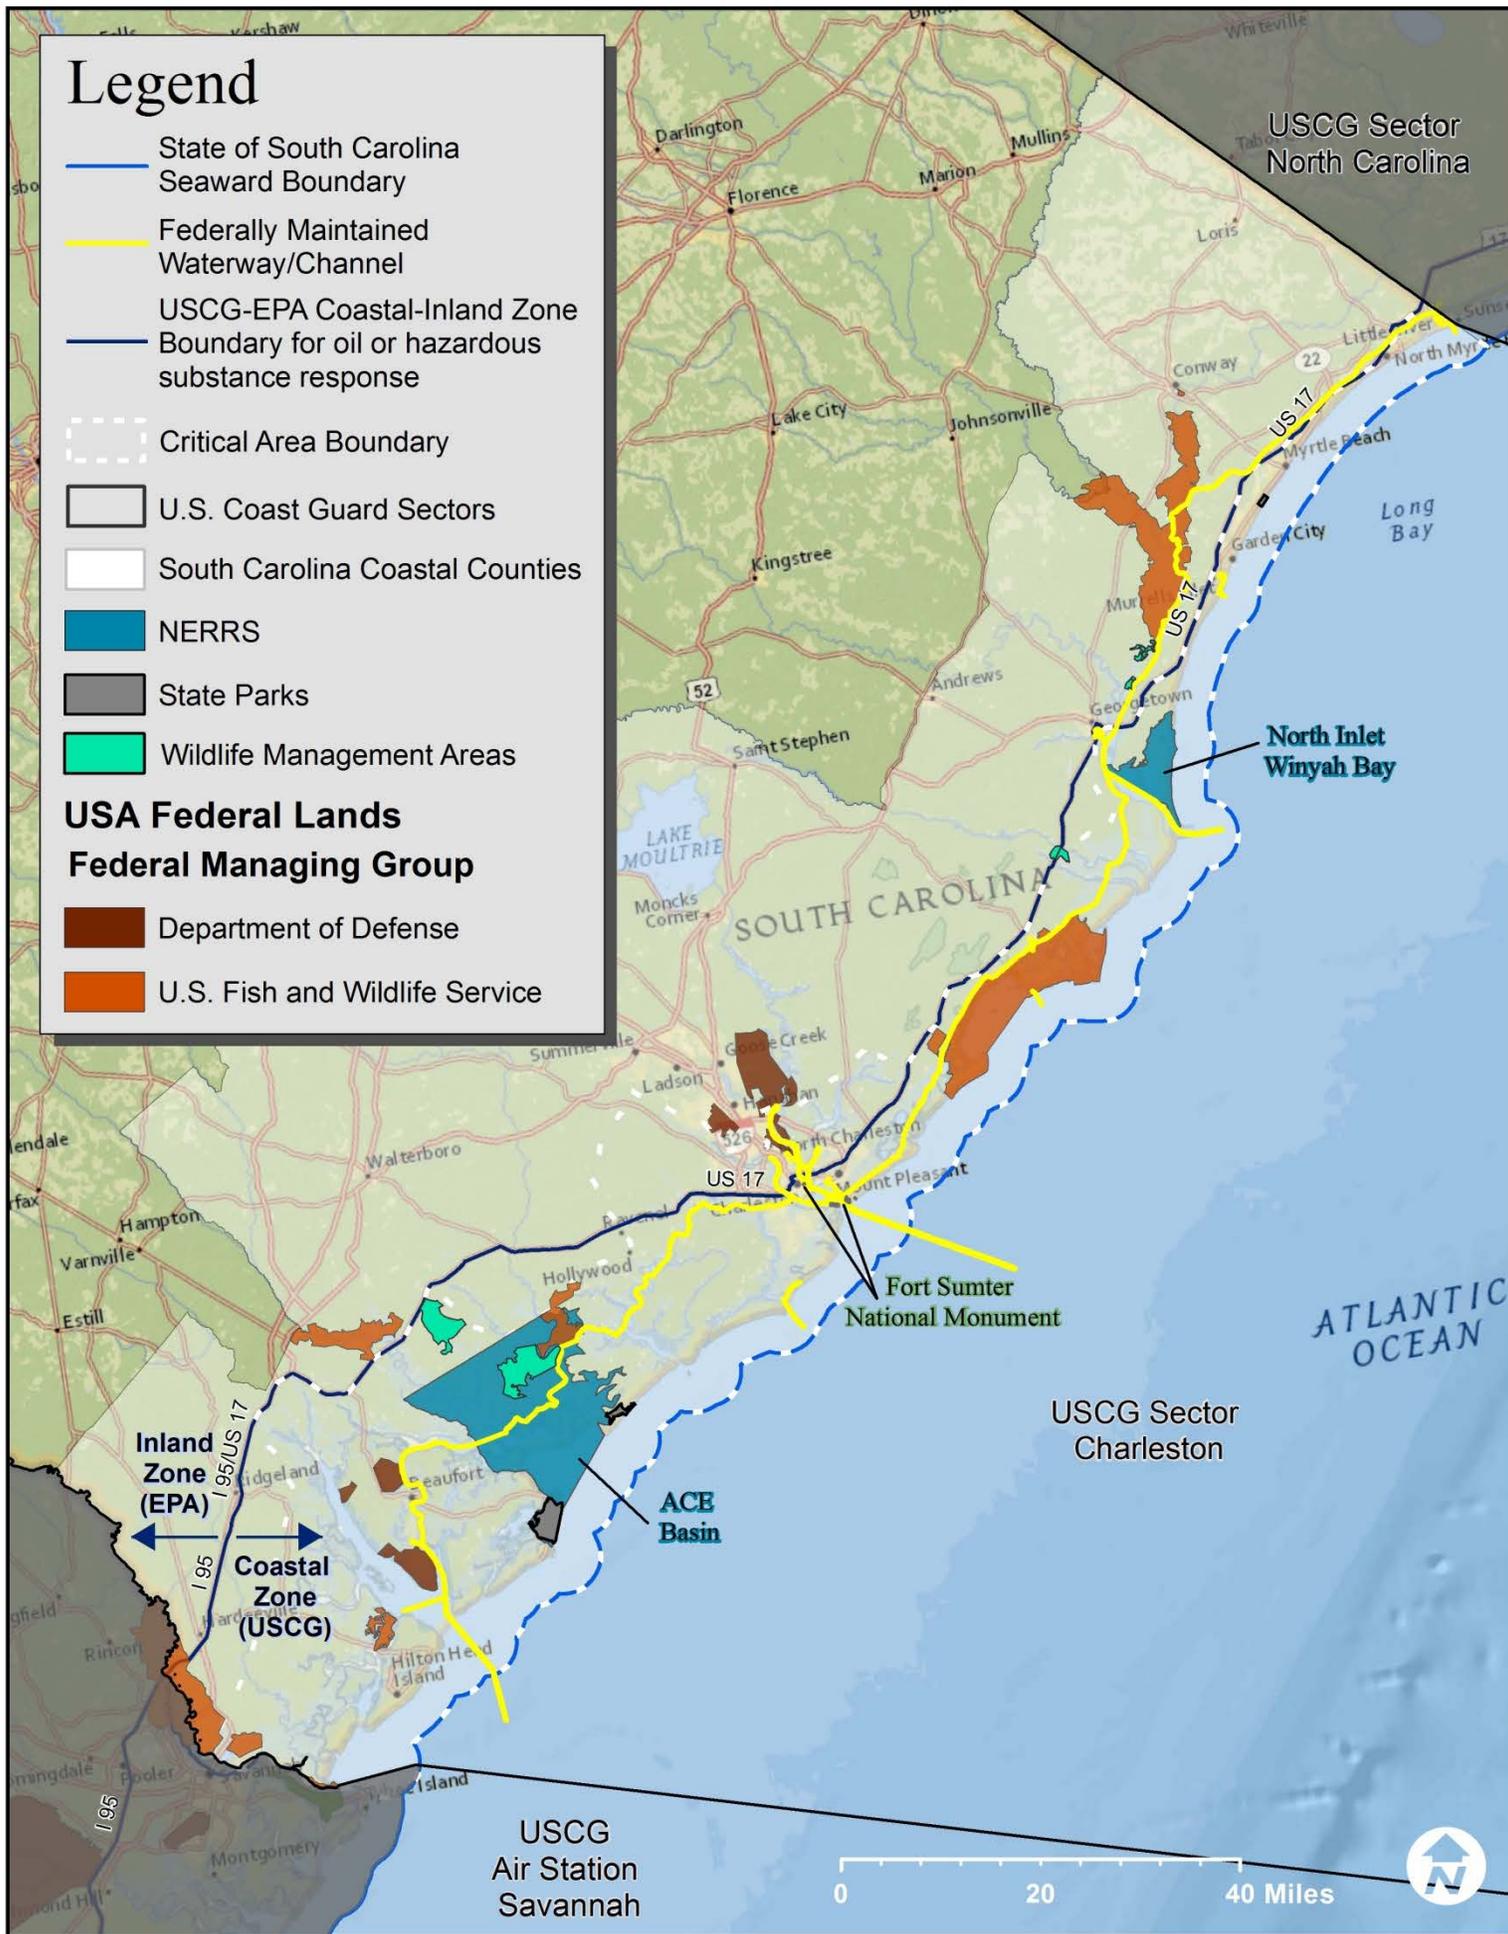

## **3. Agency Jurisdictions and Capabilities**

### **3.1 Agency Jurisdiction Map**

The “Agency Jurisdiction Map” on the following page displays coastal South Carolina’s relevant state and federal agency jurisdictions and boundaries. After an acute waterway debris incident, the agency with authority to remove debris will vary depending on where the debris is located. This map includes information that stakeholders identified as important in determining how incident waterway debris response is handled in the state.

### **3.2 Agency Response Capabilities**

# South Carolina Incident Waterway Debris Response Map

### 3.2 Agency Response Capabilities

Yes - In-house Capability		FEMA Region IV <sup>1</sup>	NOAA <sup>2</sup>	USACE Charleston District	USCG Sector Charleston	NRCS	EPA Region IV	USFWS	SC DHEC OCRM	SCIAA - MRD	SC DNR Law Enforcement Division	Beaufort County Public Works
Contract - Contracted capability												
Technology	Aerial photography and video		Yes				Contract		Yes		Yes	
	IT support during response (server/storage space for data and information sharing)		Yes				Yes					
	Magnetometers			Yes <sup>7</sup>			Contract			Yes		
	Remote Sensing		Yes	Contract						Yes		
	Sediment Profilers		Yes									
	Multi-beam sonar		Yes	Yes <sup>7</sup>							Yes	
	Side-scan sonar		Yes	Yes <sup>7</sup>						Yes		
	Single-beam sonar		Yes	Yes <sup>7</sup>							Yes	
Manpower/Expertise	Communication/public information expertise (dedicated spokesperson/Public Information Officer)		Yes	Yes	Yes		Yes		Yes		Yes	
	Compliance and permitting expertise	Yes	Yes	Yes			Yes	Yes	Yes	Yes		
	Data/information management capabilities		Yes				Yes	Yes		Yes		
	Debris modeling expertise (volume, transport, hindcasting, etc.)		Yes				Contract					
	Dedicated waterway/marine debris staff (responders, response team, regional coordination, etc.)		Yes									
	Dive support (scientific, technical, commercial etc.)		Yes <sup>3</sup>	Yes	Contract		Contract			Yes	Yes	
	Environmental expertise (location of sensitive areas, endangered species present, etc.)	Yes	Yes <sup>4</sup>	Yes	Yes	Yes	Yes	Yes	Yes		Yes	
	Field GPS units						Contract	Yes	Yes	Yes	Yes	
	Geographic Information System (GIS) mapping and plotting of imagery	Yes	Yes	Yes <sup>9</sup>			Contract		Yes	Yes	Yes	
	Hazardous substance and/or oiled debris expertise		Yes				Yes					
	Incident Command System (ICS) trained staff	Yes	Yes				Yes		Yes		Yes	
	Maritime Transportation Recovery Unit (MTSRU) expertise											
	Post-storm damage assessment teams						Yes		Yes		Yes	
	Protected species/Environmental Sensitivity Index (ESI) expert in the field		Yes					Yes			Yes	
	Technical expertise for removal operations (techniques, best management practices, etc.)	Yes	Yes	Yes <sup>9</sup>	Yes	Yes	Yes		Yes		Yes	
	Vector Control											
	Volunteer manpower					Yes		Yes		Yes	Yes	
	Volunteer coordinator									Yes	Yes	
Waterway management authority (law enforcement officers)										Yes		

Yes - In-house Capability		FEMA Region IV <sup>1</sup>	NOAA <sup>2</sup>	USACE Charleston District	USCG Sector Charleston	NRCS	EPA Region IV	USFWS	SC DHEC OCRM	SCIAA - MRD	SC DNR Law Enforcement Division	Beaufort County Public Works	
Contract - Contracted capability													
Equipment	Aircraft		Yes		Yes		Contract				Yes		
	Barge/Self-loading barge			Contract			Contract						
	Boom			Contract	Contract <sup>10</sup>		Contract						
	Crane/Knuckleboom crane			Contract			Contract						
	Environmental clamshell dredge						Contract						
	Excavator			Contract			Contract						
	General transportation/vehicles						Contract		Yes	Yes	Yes	Yes	
	Heavy/Earth-moving machinery						Contract					Yes	
	Remotely Operated Vehicle (ROV)		Yes	Yes <sup>7</sup>									Yes
	Sampling Equipment		Yes		Yes		Contract						
	Unmanned Aerial Vehicle (UAV)/Surveillance drones		Yes	Yes					Yes				
	Vessels		Yes	Yes <sup>7</sup>	Yes		Contract	Yes	Yes	Yes	Yes	Yes	
	Other specialized equipment that cannot be readily procured immediately following a debris incident			Contract	Yes		Contract						
	Logistics	Contract authority and oversight capabilities		Yes	Yes	Yes <sup>11</sup>	Yes <sup>16</sup>	Yes				Yes	
Communication equipment (i.e. two-way radio)							Yes			Yes	Yes	Yes	
Docks for wet storage of vessels					Yes <sup>12</sup>						Yes		
Facility suitable for establishing an Emergency Operations Center (EOC)			Yes	Yes	Yes								
Funding for waterway debris removal			Yes <sup>5</sup>	Yes <sup>7</sup>	Yes <sup>13</sup>	Yes <sup>17</sup>	Yes						
Laboratory space			Yes				Yes						
Medical emergency response													
Pre-approved removal contractors												Yes	
Pre-designated landfill/disposal sites (to include vegetative and animal carcasses)													
Pre-event contracts and staged agreements in place				Yes	Yes <sup>14</sup>		Yes						
Research program established to analyze long-term trends, impacts, etc.			Yes									Yes	
Staging/Off-Loading: Land with water access to stage, offload debris (has not been evaluated for suitability or officially pre-designated)													
Staging/Off-Loading: Pre-designated staging, off-loading and special handling areas (already evaluated for suitability)						Yes							
Staging area for dry storage of vessels			Yes	Yes	Yes <sup>15</sup>					Yes			
Other logistical support, including fuel, housing, food, etc.		Yes <sup>6</sup>				Contract							

Each agency self-reported capabilities which could be of use during waterway debris response. Agencies were asked to indicate whether capabilities were in-house or were contracted through a third party. Footnotes refer to additional information provided for a particular capability.

<sup>1</sup>FEMA – Capabilities contingent upon a Presidential major disaster declaration. FEMA capable of mission-assigning other federal support to increase capabilities. FEMA has interactive live collection and mapping capabilities and a template wet debris collector map for Region IV.

<sup>2</sup>NOAA - Some capabilities require contract support for staffing

<sup>3</sup>NOAA - Dive capabilities do not include sites with oil or hazardous pollutants

<sup>4</sup>NOAA – Coordinates marine mammal and sea turtle stranding response and reviews proposed debris removal activities for compliance with ESA and Magnuson-Stevens Fisheries Conservation and Management Act

<sup>5</sup>NOAA – Funding through grant program and possible Congressional supplemental funding

<sup>6</sup>NOAA – Weather and marine forecasts through National Weather Service in Newport, NC

<sup>7</sup>USACE – Funding in place for federal projects only

<sup>8</sup>USACE – Has a GIS cadre for response

<sup>9</sup>USACE – Has planning response teams

<sup>10</sup>USCG – Small amounts of boom on hand but capable of using pre-event contracts for larger pollution events

<sup>11</sup>USCG – Contract authority and oversight capabilities for USCG contracts only

<sup>12</sup>USCG – Docks for wet storage of vessels has limited space and suitable for larger vessels only

<sup>13</sup>USCG – Funding for pollution incidents only

<sup>14</sup>USCG – Pre-event contracts and staged agreements in place for pollution incidents only

<sup>15</sup>USCG – Staging area for dry storage of vessels has limited space

<sup>16</sup>NRCS – Contact authority for EWP contracts only

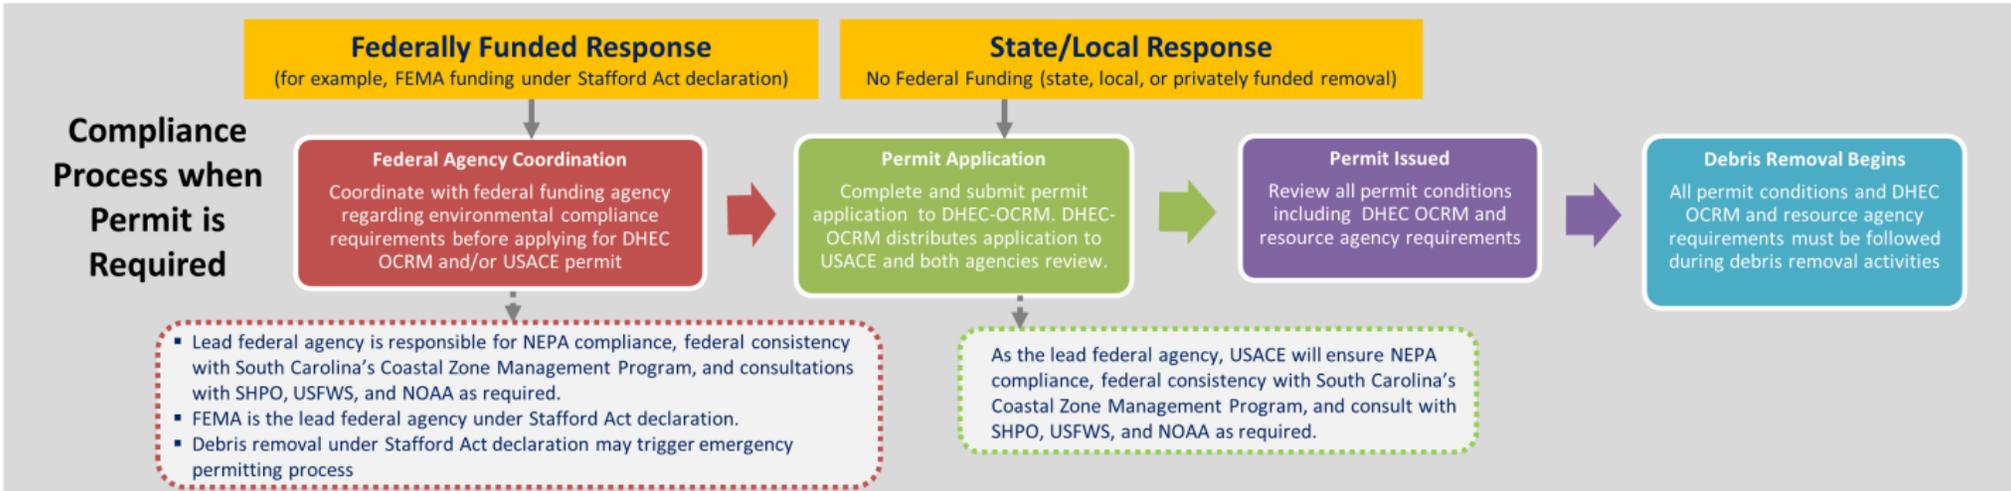

<sup>17</sup>NRCS – Funding for authorized EWP contracts only

## **4. Permitting and Compliance Requirements in South Carolina**

The “Permitting and Compliance for Waterway Debris Removal in South Carolina” one-pager on the following page synthesizes permitting and compliance requirements that must be met before waterway debris removal operations begin. The top portion of the one-pager outlines the process to follow to stay in compliance, while the bottom portion highlights specific state and federal agency requirements with general contact information.

# Permitting and Compliance for Waterway Debris Removal in South Carolina

- U.S. Army Corps of Engineers (USACE) permit may be required for debris removal within waterways and wetlands. One or multiple permits may be needed.
- If a project requires both a federal permit and a permit through the Department of Health and Environmental Control's (DHEC) Office of Ocean and Coastal Resource Management (OCRM), the applicant can apply directly to DHEC OCRM, who will forward the application to USACE and state and federal review will occur concurrently to expedite the process.
- It is the responsibility of the **lead federal agency** to ensure compliance with National Environmental Policy Act (NEPA), federal coastal consistency, and consult with resource agencies including South Carolina State Historic Preservation Office (SHPO), U.S. Fish and Wildlife Service (USFWS), and the National Oceanic and Atmospheric Administration (NOAA) as required.
